Need Training in Gas Test Atmospheres & Confined Space Entry?

Access Unlimited is a Registered Training Organisation (Provider No: 51806) under the Australian Quality Training Framework. The gas test atmospheres and confined space course includes the following units of competencies: **MSAPMOHS217A Gas test atmospheres, MSAPMPER205B Enter confined space & MSAPMPER200B Work in accordance with an issued permit (delivered as one course).**

This two day course is designed for personnel who are required to control the entry to confined spaces for maintenance, servicing of vessels or other necessary reasons. Work in/entry to confined spaces shall conform to relevant legislation and AS2865/2001, or its authorised update or replacement. It is expected that all persons entering the confined space, and the standby person will be competent to enter confined space. **It is required that all team members, will be trained in incident response including first aid or CPR.**

Topics Covered

The course is designed to provide participants with the knowledge and skills necessary to safely work under supervision in a confined space, including the selection, use and maintenance of personal protective equipment, understand the permit system, know the limitations of the permit under which they are working, and comply with all the requirements of the permit. The areas covered on the course are to assess confined space for entry, use gas detection/safety equipment and clothing, control confined space entry and conclude confined space operations.
