Need Training in Atmospheric Monitoring?

Access Unlimited is a Registered Training Organisation (Provider No: 51806) under the Australian Quality Training Framework and are pleased to offer the course in: **MSAPMOHS217A Gas test atmospheres**. This one day course is designed for persons required to test the working atmosphere to determine if it is safe for the proposed work. Testing involves the use of electronic test apparatus.

In a typical scenario an individual may be required to carry out gas testing of an atmosphere prior to entering a specific area or workspace. The competency requires the person to interpret readings and take actions based on the interpretation. This unit is modeled on the Public Safety unit PUAFIR307A Monitor hazardous atmospheres, but does not have the prerequisites, which are not required in the industrial context. The unit is more focused on the needs of that sector and has some wording changes.

We can deliver on-site (subject to appropriate training facilities being available) or at our first class training facility located in Osborne Park, Western Australia.

Topics Covered

Regulations and Legislation, Australian Standards, Hazard Identification and Risk Assessment, Entry Permits, Atmospheric Test Requirements, Atmospheric Hazards and Measurement, Explosive, Flammable and Toxic Atmospheres, Gas detection systems and Record Keeping.

Course Cost for One Day Course

Individual: \$300

Company Group: \$2100 for a group of 7 to 10 participants

Note: GST does not apply to nationally recognised training.

Course Logistics

Number of Participants: Minimum 4 - Maximum 10

Duration: 1 Day (up to 8 hours)

Equipment: Can be supplied by Access Unlimited

Meals: Lunch provided (only on our premises)

Successful completion of both the theoretical and practical exercises will lead to the issue of a Statement of Attainment in MSAPMOHS217A Gas test atmospheres.

To make a booking please contact our Training Manager on **1800 607 558** or
